

Rocket Lab Successfully Completes 92nd Electron Mission, 8th Launch for iQPS Earth-Imaging Constellation

August 6, 2026

MAHIA, New Zealand, Aug. 06, 2026 (GLOBE NEWSWIRE) -- Rocket Lab Corporation (Nasdaq: RKLb), a global leader in launch services and space systems, today successfully launched its 13th Electron rocket of the year to deploy the latest satellite to space for multi-launch customer Institute for Q-shu Pioneers of Space, Inc. (iQPS), operators of the QPS-SAR Earth-imaging constellation.

'The Grain Goddess Provides' mission launched from Rocket Lab Launch Complex 1 in New Zealand at 9:18 p.m. NZST on August 6, 2026 to deploy the QPS-SAR-13 satellite to space for iQPS that will join its synthetic aperture radar (SAR) constellation providing near-real time imagery across twelve different orbits.

This mission was the eighth deployment of a QPS-SAR satellite with 100% mission success by Rocket Lab as Electron continues to serve the iQPS constellation as its primary launch provider. Another 10 dedicated launches are booked on Electron by iQPS to complete their constellation before 2030, showcasing the trust and confidence they have in Rocket Lab's reliability and performance to deploy the iQPS constellation at scale.

'The Grain Goddess Provides' mission was Rocket Lab's 92nd overall Electron mission. Rocket Lab's next Electron launch will carry another QPS-SAR satellite on a mission called "The Lightning God Defends", which is scheduled to take place later this month from LC-1.

About Rocket Lab

Rocket Lab (Nasdaq: RKLb) is an end-to-end space company delivering rockets, satellites, and spacecraft components for commercial, government, and defense missions. Driven by its industry-leading small-lift rockets Electron and HASTE and its upcoming reusable Neutron medium-lift rocket, Rocket Lab delivers reliable and responsive launch for the world's most important missions from constellation deployment to missile defense. Rocket Lab's satellites and components have powered more than 1,700 missions in Earth orbit, as well as deep-space exploration of the Moon, Mars, and beyond. Learn more at www.rocketlabcorp.com.

Forward Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements contained in this press release other than statements of historical fact, including, without limitation, statements regarding our launch and space systems operations, launch schedule and window, safe and repeatable access to space, Neutron development, operational expansion and business strategy, are forward-looking statements. The words "believe," "may," "will," "estimate," "potential," "continue," "anticipate," "intend," "expect," "strategy," "future," "could," "would," "project," "plan," "target," and similar expressions are intended to identify forward-looking statements, though not all forward-looking statements use these words or expressions. These statements are neither promises nor guarantees, but involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements, including but not limited to the factors, risks and uncertainties included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2025, as such factors may be updated from time to time in our other filings with the Securities and Exchange Commission (the "SEC"), accessible on the SEC's website at www.sec.gov and the Investor Relations section of our website at <https://investors.rocketlabcorp.com> which could cause our actual results to differ materially from those indicated by the forward-looking statements made in this press release. Any such forward-looking statements represent management's estimates as of the date of this press release. While we may elect to update such forward-looking statements at some point in the future, we disclaim any obligation to do so, even if subsequent events cause our views to change.
