

MISSION SUCCESS: Rocket Lab Launches 97th Electron Mission

September 25, 2026

MAHIA, New Zealand, Sept. 25, 2026 (GLOBE NEWSWIRE) -- Rocket Lab Corporation (Nasdaq: RKLB), a global leader in launch services and space systems, today launched its latest dedicated mission for Earth-monitoring constellation operator Synspecive.

The 'Owlright Owlright Owlright' mission launched from Rocket Lab Launch Complex 1 in New Zealand at 12:39 p.m. NZST on 26 September 2026, delivering the 13th StriX satellite directly into a 559km low Earth orbit. The deployment expands Synspecive's synthetic aperture radar (SAR) imaging constellation that provides high-resolution, all-weather, day-and-night imaging of the Earth's surface.

Today's mission was Rocket Lab's 97th Electron launch and 18th launch this year, sustaining Electron's position as the world's most frequently-launched small-lift orbital rocket.

Mission Highlights:

- **Dedicated Constellation Delivery:** Across a multi-year partnership, Electron has flawlessly deployed all 13 StriX satellites to orbit with 100% mission success.
- **Reliable Flight Cadence:** With 18 launches in 2026 so far, Rocket Lab continues to demonstrate the reliability and repeatability required to build out small satellite constellations with precision.
- **Constellation Expansion:** Following today's mission, another 14 launches remain on schedule to deliver the rest of Synspecive's constellation to space by the end of the decade.

About Rocket Lab

Rocket Lab (Nasdaq: RKLB) is an end-to-end space company delivering rockets, satellites, and spacecraft components for commercial, government, and defense missions. Driven by its industry-leading small-lift rockets Electron and HASTE and its upcoming reusable Neutron medium-lift rocket, Rocket Lab delivers reliable and responsive launch for the world's most important missions from constellation deployment to missile defense. Rocket Lab's satellites and components have powered more than 1,700 missions in Earth orbit, as well as deep-space exploration of the Moon, Mars, and beyond. Learn more at www.rocketlabcorp.com.

Forward Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements contained in this press release other than statements of historical fact, including, without limitation, statements regarding our launch and space systems operations, launch schedule and window, safe and repeatable access to space, Neutron development, operational expansion and business strategy, are forward-looking statements. The words "believe," "may," "will," "estimate," "potential," "continue," "anticipate," "intend," "expect," "strategy," "future," "could," "would," "project," "plan," "target," and similar expressions are intended to identify forward-looking statements, though not all forward-looking statements use these words or expressions. These statements are neither promises nor guarantees, but involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements, including but not limited to the factors, risks and uncertainties included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2025, as such factors may be updated from time to time in our other filings with the Securities and Exchange Commission (the "SEC"), accessible on the SEC's website at www.sec.gov and the Investor Relations section of our website at <https://investors.rocketlabcorp.com> which could cause our actual results to differ materially from those indicated by the forward-looking statements made in this press release. Any such forward-looking statements represent management's estimates as of the date of this press release. While we may elect to update such forward-looking statements at some point in the

future, we disclaim any obligation to do so, even if subsequent events cause our views to change.
